

Sift is gesture based email for your mailbox

Sort out all your mailboxes in seconds without giving up your favorite email app. Sift works great with your Gmail, Yahoo!, Outlook.com, Hotmail, iCloud, FastMail and IMAP accounts.

- Curate all your mailboxes quickly with customizable gestures
- Unified mailbox
- Undo actions
- Snippets for super quick replies
- Assign color labels to your mailboxes
- Per account signatures
- Automatic reply salutations
- Supports two-factor/step authentication for Gmail accounts
- Message grouping by account
- Account grouping by color label
- Unlimited email aliases
- Customizable morning and evening reminders
- Send email and message cards to your favorite apps to create tasks, notes, journal entries, reminders, and more
- Quick actions include: keep, mark as read, delete, archive, snooze, and star
- Works great on iPhones and iPads
